WORK EXPERIENCE

Web Designer Intern | VSolver

July 10 - Sept 14, 2023

- Implemented the global colour changes to the entire VBillo Software. VBillo is Numeric-based billing software that manages the data and products of the customer.
- Contributed to the settings page module and developed the dropdown list that displays table content based on selected roles, such as owner, manager, and employee.

PROJECTS

Hotel Management System

[View in GitHub](#)

- Developed a Hotel Management System that is entirely created only by using AI tools namely ChatGPT 3.5, Microsoft Copilot and Gemini AI.
- Implemented an efficient management system that allows the admin to manage every module easily without facing complexity.
- The system is designed with a visually appealing user interface to facilitate effective reservations.

Voice Speech Synthesis

[View in GitHub](#)

- Developed a speech synthesis by using React Js and Typescript using ChatGPT 3.5.
- Implemented speech synthesis to analyze the amount entered in the textbox and speech it.
